SUMMARY

A Fresh Graduate in Informatics from Gunadarma University with a GPA of 3.81/4.00 and a strong interest in **Web Engineering, IT Support, Quality Assurance, Data Science, Programmer, AI Engginer and Data Analysis**. A communicative, highly motivated, and adaptable individual with a strong willingness to learn and develop new skills, capable of working effectively both independently and collaboratively in a team. Values honesty, responsibility, and continuous improvement in every task undertaken.

EDUCATION LEVEL

GUNADARMA UNIVERSITY September 2022 – August 2026

Fresh Graduate in Informatics – GPA: 3.81/4.00

- Received a **Hak Kekayaan Intelektual (HAKI) Certificate** for the development of a legal article recommendation system.
- Developed TrafficAI for undergraduate thesis, utilizing BLIP, Groq Vision, and RAG for traffic violation detection on a web platform.

DICODING x ACCENTURE August 2025 – January 2026

Independent Study - Machine Learning

- Completed a **5-month** intensive program in **Machine Learning, Deep Learning, and Artificial Intelligence**, covering 20+ hands-on modules and projects.
- Developed Learning Buddy Chatbot, an **NLP-based educational** assistant that answered **100+** simulated student queries during testing with over **85% response accuracy**, reducing average response time to **under 3 seconds**.

SKILLS

Hard Skills: Microsoft Office, Python, R, SQL, C/C++, Java, Golang, JavaScript, TypeScript, PHP, React.js, Angular, Node.js, Flask, Laravel, Vite, ASP.NET, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, TensorFlow, Keras, CNN, MobileNetV2, LLM, RAG, MySQL, PostgreSQL, Oracle, SQL Server, MongoDB, Firebase, Tableau, Power BI, Docker, Nginx, Git, Prometheus, Grafana, SDLC.

Soft Skills: Good Communication, Team Work, Problem Solving, Creativity, and Time Management.

Languages: Indonesian (Active), English (Passive).

TECHNICAL COMPETENCIES

- Web & Software Development:** Skilled in building responsive and functional web applications using ReactJs, PHP, Laravel, ASPNET, Angular, TypeScript, NodeJS, Flask, Vite, JavaScript, Java, Golang, and C/C++, with database integration using MySQL, Firebase, and MongoDB; experienced in deployment using Docker and Nginx, along with version control using Git to support scalable and efficient system development.
- Data Analysis & Data Science:** Experienced in data cleaning, preprocessing, exploratory data analysis (EDA), feature engineering, statistical analysis, data visualization, and predictive modeling using Python (Pandas, NumPy, Matplotlib, Seaborn), R, and SQL. Proficient in utilizing tools such as Google Colab, Jupyter Notebook, Tableau, and Power BI to transform raw data into meaningful insights and support data-driven decision-making.
- Deep Learning & Machine Learning:** Experienced in developing AI-powered systems using TensorFlow, Keras, Scikit-learn, NumPy, Pandas, and LLM technologies, with hands-on experience in deep learning and machine learning techniques for domain classification, anomaly detection, predictive modeling, computer vision, and NLP-based applications. Experienced in utilizing models and techniques such as MobileNetV2, CNN, BLIP, AI Vision, and RAG (Retrieval-Augmented Generation) for intelligent automation and decision-making.
- Data Engineering:** Experienced in designing and managing ETL pipelines, data integration, and structured databases using PostgreSQL, Oracle, SQL Server, and MongoDB, along with workflow automation using Python and Power Automate, with a strong focus on ensuring data consistency, reliability, and readiness for analysis.

WORKSHOPS

- RevoU** 14 February 2025
Analyzed a dataset of **10,000+ Amazon Prime** transactions to identify trends and generate business insights, presenting findings through 5+ key visualizations.
- DQLab** 5 September 2025
Built a credit scoring model using Data Science methodologies, **achieving 85%+** prediction accuracy for customer risk.
- SanberCode** 4 Agustus 2025 - 29 Agustus 2025
Developed responsive web applications using React JS and modern state management.

PROJECTS

- **Learning Buddy Chatbot** — [LINK](#)
NLP educational assistant for student Q&A.
- **Legal Response Recommendation System** — [LINK](#)
ML-based legal response recommender.
- **Hospital Management System** — [LINK](#)
Java-based hospital management app.
- **Music Streaming Platform** — [LINK](#)
Spotify-like platform built with PHP.
- **Virtual AI Friend Chatbot** — [LINK](#)
NLP-powered companion chatbot.
- **Traffic Law Violation Chatbot** — [LINK](#)
Chatbot for traffic law info.
- **TCP & DCP Analysis Extension** — [LINK](#)
Browser extension for protocol analysis.
- **WiFi Traffic Domain Detection System** — [LINK](#)
Network security & anomaly detection.
- **TacticsFootball Analyst** — [LINK](#)
Football tactical analytics platform.

WORK EXPERIENCES

BAKTI KOMDIGI

May 2026 – August 2026

Software Engginer

- Built a Python-based system for real-time DNS traffic monitoring with AI-powered domain classification and anomaly detection, successfully **completing 100%** of the project scope and piloting it in 3T (Tertinggal, Terdepan, Terluar) regions to validate performance and reliability under limited-infrastructure conditions.

ASSISTANT LABORATORY INSTRUCTOR – Informatics Laboratory Gunadarma

August 2025 – August 2026

- Assisted teaching in AI, C/C++, UI/UX Design, Golang, Digital Image Processing, and Computer Networks for **30+ students** across multiple courses.
- Guided students in practical exercises and project development, **teaching across year 1 through year 4 levels**.
- Prepared and ensured the readiness of **25+ laboratory computers** and required software before each practical session.
- Participated in the Gunadarma University Exhibition, developing a web-based project to **showcase innovation** and academic work.

CERTIFICATIONS

- React JS Web Frontend Development – Sanbercode
- Data Analyst Mini Course – Revou
- Data Science in Finance: Credit Risk Analysis – DQLAB
- SQL Server for Intermediate – Lepkom Gunadarma
- Oracle Server for Intermdiate – Lepkom Gunadarma
- Machine Learning – Asah led by Dicoding in Association with Accenture
- Built a machine learning system – Dicoding
- ASPNET and Angular – Udemey
